BROOKVILLE ORCHIDS

465 EAST 57th STREET

NEW YORK 22, N. Y.

Enclosed please find a list of our hybrid orchid seedlings. These plants, raised in our own range, are well established and thriving and will soon require transplanting to larger size pots.

The price of the plant includes free packing, but does not include shipping charges. Due to the friable nature of the potting mixture, we cannot ship our community seedlings out of pots. Although we will ship your plants by any means you specify, we have had fine results sending seedlings by Air Mail when the distances justified this method.

Our orchid plants are free from injurious insects, scale, etc., and we are prepared to enclose an affidavit to this effect from the local State Agriculture inspector if desired.

We are sure that you will find some interesting crosses in our list, whether you desire exhibition varieties or free-flowering commercial types.

We will be glad to send you any additional information about our plants. Should you favor us with an order, we are sure you would be pleased with our seedlings.

COMMUNITY POTS

(Averaging 15 plants per pot)

No. 4—LC. S. H. SALVAGE X C. PRISCILLA, VAR. ALBA

White flowers with brilliantly striped purple lips and of fine shape are expected from these seedlings.
Price \$22.50 per pot.

No. 5—C. INTERMEDIA, VAR. ALBA X C. LOUIS SANDER

Our second batch of this cross. The flowers are small but have excellent keeping qualities and are a beautiful pure white with only a faint tinge of color in the throat. The plants are very vigorous and often bloom twice a year. One of the very few hybrid whites with a flowering season from March to the end of July. An excellent commercial cross. Price \$22.50 per pot.

No. 26—C. ENID X C. ENID

A favorite, reliable, free-flowering hybrid. Price \$15.00 per pot.

No. 27—C. ENID X C. THUREA, VAR. F.C.C.

C. Thurea has a very dark flower of heavy substance, blooming in the Fall. Combined with Enid it should produce strong growing, free-flowering plants. Price \$15.00 per pot.

No. 28—C. REMY CHOLET, VAR. BRUGE X LC. INVICTA, F.C.C.

These seedlings should produce very fine, large exhibition blooms during the Easter season. Price \$15.00 per pot.

No. 29—LC. MODEL, F.C.C. X C. REMY CHOLET, VAR. BRUGE

This Lc. Model is a superb award winner; excellent shape and substance and brilliant coloring in the flower. Should yield an exceptional Winter-flowering hybrid. Price \$15.00 per pot.

No. 35—C. GASKELLIANA X C. DUPREANA

Our Dupreana flower is dark mauve with purple and gold in the lip; it has a fine shape and excellent keeping qualities. Price \$15.00 per pot.

COMMUNITY POTS

(Averaging 15 plants per pot)

No. 58—BC. IMPERIALIS X C. DUPREANA, VAR. COE

The Brassocattleya is very similar to Cliftonii "Magnifica". The C. Dupreana used here is a very dark variety. Price \$15.00 per pot.

No. 60—BC. IN MEMORIAM DAVID ADAMS X C. MOSSIAE

The hybrid parent produces an extremely large, well-shaped dark flower and is crossed with an exceptional Mossiae. Price \$15.00 per pot.

No. 66—LC. BRACEYANA X (C. SPECIOSISSIMA X PERCIVILIANA)

These parents should produce seedlings showing very dark flowers with intensely brilliant lips during Mid-winter. Price \$15.00 per pot.

No. 74—LC. CASSANDRA X C. ADELLA

Lc. Cassandra shows a monstrous flower of excellent shape and substance. C. Adella has a medium-sized dark flower in Mid-winter. This union should yield some seedlings with award possibilities. Price \$15.00 per pot.

No. 80—C. DUPREANA, VAR. COE X C. COMET

Judging from the parents, we expect a well-shaped, medium-sized, dark flower from this cross. May-June flowering. Price \$15.00 per pot.

No. 83—(C. TRIANAE GRAND MONARCH X BC. EUDORE) X C. SPECIOSISSIMA

Light mauve flowers during Mid-winter are likely with these parents. Price \$15.00 per pot.

No. 84—C. MT. ROYAL X C. THUREA, F.C.C.

Very dark flowers during Mid-winter are indicated. C. Thurea's flowers show splendid substance and shape. Price \$15.00 per pot.

COMMUNITY POTS

(Averaging 15 plants per pot)

No. 85—BC. IMPERIALIS X (C. TRIANAE GRAND MONARCH X BC. EUDORE)

Bc. Imperialis is very similar to Cliftonii "Magnifica". The second parent is a fine light mauve brassocattleya. Price \$15.00 per pot.

No. 86—LC. ROBERT H. JEWELL X LC. NATALIE KOUSEWITZKI

It is very difficult to predict exactly what will be the result here. We may have seedlings with yellow, cream or even white flowers. They will probably bloom in the late Fall. Very fine sturdy seedlings. Price \$22.50 per pot.

No. 100—C. HARDYANA X C. HARRY GREY

This hybrid should produce fine dark flowers in Mid-summer. Price \$15.00 per pot.

No. 51—C. TRIANAE X LC. CEYLON TOPAZ

This is a repeat cross. The flowers will be of medium size of dark purple shades with good form and substance, flowering during the Christmas season. Price \$15.00 per pot

No. 54—C. BARBARA DANE X C. CLEMENTINE GOLDFARB

C. Barbara Dane is proving to be an excellent parent. The result should be a fine Autumn-flowering white with some orange in the throat. Price \$22.50 per pot.

No. 78—LC. MONARMUS, VAR. F.C.C. X C. MOSSIAE

Lc. Monarmus, F.C.C. is called the "Perfect Orchid" and is very similar in shape to that wonderful stud plant Lc. Model, F.C.C. These seedlings should yield excellent large Easter flowers with crimson lips. Price \$15.00 per pot.

No. 87—C. GRAVESSIANA X C. EDITHAE

This parentage should produce large, pure white flowers with some yellow in the throat. Price \$22.50 per pot.

COMMUNITY POTS

(Averaging 15 plants per pot)

No. 113—C. BARBARA DANE, VAR. PERFECTA X BC. ALBION

A very large Autumn and Winter flower; all white with white frilled lip or possibly purple lip is probable from these parents. Price \$22.50 per pot.

No. 114—BC. NANNETTE X C. PRISCILLA, VAR. ALBA

Blc. Nannette's flower is very large and of excellent carriage with beautiful white frilled lip. C. Priscilla Alba has a well-formed white flower with intense purple lip and bright yellow veining. This parentage should produce a remarkable brassolaeliocattleya flowering in the early Spring. Price \$22.50 per pot.

No. 115—C. MOSSIAE WAGNERII, ALBA X BLC. NANNETTE

These seedlings should turn out to be excellent exhibition plants with very large white flowers, possibly with a tint of lilac in the center of lip. Early Spring flowering. Price \$22.50 per pot.

No. 117—BLC. WOODNOTE X C. TRIANAE

The brassolaeliocattleya has a fine dark flower with very pronounced yellow eyes. An excellent Trianae was used in this cross. Price \$15.00 per pot.

No. 119—BC. NELLA X BLC. CALIGULA

These brassolaeliocattleyas should produce very large dark flowers during the Winter months. Price \$15.00 per pot.

No. 120—LC. ERNEST P. DANE X C. TITRIANAE

With these two excellent hybrids as parents we may well expect very distinctive blooms of dark shades in Winter. Price \$15.00 per pot.

SINGLE POTS

No. 4—LC. S. H. SALVAGE X C. PRISCILLA, VAR. ALBA

White flowers with brilliantly striped purple lips and of fine shape are expected from these seedlings. Price 1 $\frac{3}{4}$ " pot — \$2.50

No. 5—C. INTERMEDIA, VAR. ALBA X C. LOUIS SANDER

Our second batch of this cross. The flowers are small but have excellent keeping qualities and are a beautiful pure white with only a faint tinge of color in the throat. The plants are very vigorous and often bloom twice a year. One of the very few hybrid whites with a flowering season from March to the end of July. An excellent commercial cross. Price 1 $\frac{3}{4}$ " pot — \$2.50

No. 13—C. DIONYSIUS X C. PRINCESS ROYAL

These parents produce well-shaped, medium-sized dark flowers during the Summer. These seedlings are very strong growers. Price 2 $\frac{1}{2}$ " pot — \$3.25

No. 15—C. MRS. GEORGE BALDWIN X C. HARDYANA

Both these hybrids exhibit large, deep purple flowers with yellow eyes. Summer flowering. Price 2 $\frac{1}{2}$ " pot — \$4.00

No. 16—C. JAMES STUART X BC. ILENE

This seedling should produce medium-sized mauve flowers with crimson lip during the Summer. Very strong grower. Price 2" pot — \$2.50

No. 17—C. TRIANAE X C. NANCY HARTE

C. Nancy Harte is Autumn-flowering with light mauve flowers, beautifully splashed with crimson at the tips of petals and lip. Price 2" pot — \$2.50

No. 19—C. TRIANAE X C. SANTA CLAUS

C. Santa Claus has a fine shaped flower, deep mauve, of excellent substance. This is a Winter-flowering cross. Price 2" pot — \$3.50

SINGLE POTS

No. 22—LC. WINDERMERE, VAR. F.C.C. X. C. TITYUS

Lc. Windermere produces a splendid, massive, dark purple flower, perfect in almost every respect, with a brilliant lip and heavily veined throat. C. Tityus has a medium-colored flower of large size with dark lip. Winter-flowering. Price 2" pot — \$4.75

No. 23—C. CYBELE ALBA X C. SNOWDON

This cross yields the successful hybrid C. Clementine Goldfarb which exhibits a large, well-shaped white flower with yellow in the throat during the Autumn months. Price 1 $\frac{3}{4}$ " pot — \$3.00

No. 26—C. ENID X C. ENID

A favorite, reliable, free-flowering hybrid. Price 1 $\frac{3}{4}$ " pot — \$2.25

No. 27—C. ENID X C. THUREA, VAR F.C.C.

C. Thurea has a very dark flower of heavy substance, blooming in the Fall. Combined with Enid it should produce strong growing, free-flowering plants. Price 1 $\frac{3}{4}$ " pot — \$2.25

No. 28—C. REMY CHOLET, VAR. BRUGE X LC. INVICTA, VAR. F.C.C.

These seedlings should produce very fine, large exhibition blooms during the Easter season. Price 1 $\frac{3}{4}$ " pot — \$2.75

No. 31—C. H.L. DILLON X C. BOBBY JEWELL

Late Fall and Winter-blooming plants with pure white flowers similar to C. Clementine Goldfarb are indicated by these parents. Price 1 $\frac{3}{4}$ " pot — \$3.00

No. 35—C. GASKELLIANA X C. DUPREANA

Our Dupreana flower is dark mauve with purple and gold in the lip; it has a fine shape and excellent keeping qualities. Price 1 $\frac{3}{4}$ " pot — \$2.25

No. 37—C. GASKELLIANA X C. HENTSCHELII

C. Hentschelii is a very strong growing plant, producing during the summer months many large flowers of fine shape and substance, medium-dark in color. Price 1 $\frac{3}{4}$ " pot — \$2.25

SINGLE POTS

No. 39—C. TRIANAE X BC. MARIE-MARIE, VAR. F.C.C.

The brassocattleya exhibits a large mauve flower of excellent shape with a very large brilliant frilled lip. Autumn-Winter flowering. Price 1 $\frac{3}{4}$ " pot — \$2.25

No. 40—LC. HYPERION, VAR. F.C.C. X LC. GEORGE CIEJKA

Lc. Hyperion's flowers are of a light mauve color with brilliant dark veined lip. The petals are exceptionally broad and the flower exhibits a fine carriage. Lc. George Ciejka has a rosy-mauve flower with some yellow in the throat. This should be a winter-flowering cross. Price 1 $\frac{3}{4}$ " pot — \$4.50

No. 44—LC. WINDERMERE, VAR. F.C.C. X C. MONMOS

Lc. Windermere produces a splendid, massive, dark purple flower, perfect in almost every respect, with a brilliant lip and heavily veined throat. C. Monmos is a glorified Mossiae blooming at Easter. This should be a superb exhibition hybrid. Price 2" pot — \$4.75

No. 45—LC. WINDERMERE, VAR. F.C.C. X LC. LOCARNO

Lc. Windermere produces a splendid, massive, dark purple flower, perfect in almost every respect, with a brilliant lip and heavily veined throat. The Lc. Locarno used in this mating is an exceptional stud plant with large deep-mauve flowers of excellent substance and brilliant lip. These seedlings should bloom during mid-winter. Price 2" pot — \$3.00

No. 47—C. ENID X LC. CASSANDRA

We expect a fine free-flowering seedling from this parentage. Lc. Cassandra has an extremely massive well-shaped exhibition bloom with brilliant coloring. Price 1 $\frac{3}{4}$ " pot — \$2.75

No. 55—(C. TRIANAE X C. RHOERSIANA) X LC. HYPERION, VAR. F.C.C.

The first parent blooms in mid-winter. The flower is of perfect shape with beautiful round petals and large lip. The Orange in the throat and yellow veining is particularly vivid. Lc. Hyperion is described above, being of light mauve color with brilliant dark veined lip. Price 1 $\frac{3}{4}$ " pot — \$2.75

No. 58—BC. IMPERIALIS X C. DUPREANA, VAR. COE

The Brassocattleya is very similar to Cliftonii "Magnifica". The C. Dupreana used here is a very dark variety. Price 1 $\frac{3}{4}$ " pot — \$2.75

SINGLE POTS

No. 59—LC. CLAIRE HANNINGTON, VAR. PEACH X (C. GEN. PULTENEY X C. ENID)

A great variation is expected in the flowers of this seedling. Colors from yellow through bronze to purple may be the result. Winter-flowering. Price 1 $\frac{3}{4}$ " pot — \$3.00

No. 60—BC. IN MEMORIAM DAVID ADAMS X C. MOSSIAE

The hybrid parent produces an extremely large, well-shaped dark flower and is crossed with an exceptional Mossiae. Price 1 $\frac{3}{4}$ " pot — \$2.25

No. 63—C. GRAVESIANA, VAR. ALBA X C. LOUIS SANDER

This cross should yield pure white flowers of excellent form, blooming in the Spring. Price 1 $\frac{3}{4}$ " pot — \$3.00

No. 65—SLC. COUMUSE X C. MOSSIAE

The hybrid parent is very large for a Sophrolaeliocattleya and should produce a brilliant dark purple Easter-flowering hybrid with C. Mossiae. Price 1 $\frac{3}{4}$ " pot — \$2.75

No. 66—LC. BRACEYANA X (C. SPECIOSISSIMA X PERCIVILIANA)

These parents should produce seedlings showing very dark flowers with intensely brilliant lips during Mid-winter. Price 1 $\frac{3}{4}$ " pot — \$2.25

No. 68—C. GIGAS X C. MOSSIAE

A favorite reliable, free-flowering hybrid. The flower is mauve in color with Mossiae type markings in the throat. Season of bloom variable. Price 1 $\frac{3}{4}$ " pot — \$2.25

No. 69—LC. MODEL, VAR. F.C.C. X LC. BACH-AGA

This Lc. Model is a superb award winner; excellent shape and substance and brilliant coloring in the flower. Crossed with Lc. Bach-Aga it should produce excellent results. Price 2" pot — \$4.75

No. 73—C. GRAVESIANA, VAR. ALBA X C. EDITHAE, VAR. WHITE EMPRESS, F.C.C.

This parentage should produce large, pure white flowers with some yellow in the throat. Fall and Winter flowering. Price 1 $\frac{3}{4}$ " pot — \$3.00

SINGLE POTS

No. 74—LC. CASSANDRA X C. ADELLA

Lc. Cassandra shows a monstrous flower of excellent shape and substance. C. Adella has a medium-sized dark flower in Mid-winter. This union should yield some seedlings with award possibilities. Price 1 $\frac{3}{4}$ " pot — \$2.75

No. 79—C. NANCY HARTE X LC. WINDERMERE, VAR. F.C.C.

The cattleya parent is Autumn-flowering with light mauve flowers, beautifully splashed with crimson at lips of petals and lip. Lc. Windermere has a splendid massive, dark flower, perfect in almost every respect, with a brilliant lip and heavily veined throat. Price 1 $\frac{3}{4}$ " pot — \$2.25

No. 80—C. DUPREANA, VAR. COE X C. COMET

Judging from the parents, we expect a well-shaped, medium-sized, dark flower from this cross. May-June flowering. Price 1 $\frac{3}{4}$ " pot — \$2.25

No. 83—(C. TRIANAE GRAND MONARCH X BC. EUDORE) X C. SPECIOSISSIMA

Light mauve flowers during Mid-winter are likely with these parents. Price 1 $\frac{3}{4}$ " pot — \$2.25

No. 84—C. MT. ROYAL X C. THUREA, F.C.C.

Very dark flowers during Mid-winter are indicated. C. Thurea's flowers show splendid substance and shape. Price 1 $\frac{3}{4}$ " pot — \$2.25

No. 85—BC. IMPERIALIS X (C. TRIANAE GRAND MONARCH X BC. EUDORE)

Bc. Imperialis is very similar to Cliftonii "Magnifica". The second parent is a fine light mauve brassocattleya. Price 1 $\frac{3}{4}$ " pot — \$2.25

SINGLE POTS

No. 86—LC. ROBERT H. JEWELL X LC. NATALIE KOUSEWITZKI

It is very difficult to predict exactly what will be the result here. We may have seedlings with yellow, cream or even white flowers. They will probably bloom in the late Fall. Very fine sturdy seedlings. Price 1 $\frac{1}{4}$ " pot — \$3.00

No. 87—C. GRAVESIANA X C. EDITHAE

This parentage should produce large, pure white flowers with some yellow in the throat. NOT same parentage as No. 73. Price 1 $\frac{1}{4}$ " pot — \$3.00

No. 100—C. HARDYANA X C. HARRY GREY

This hybrid should produce fine dark flowers in Mid-summer. Price 1 $\frac{1}{4}$ " pot — \$2.25
